

Suggested Student Activities

AUTOMOTIVE

Teachers delivering this course and workplace supervisors who have hosted their students recommend any of the following activities for students to complete during work placement. This is not a finite list; you may wish to offer other equally suitable activities relevant to the course.

Talking with the students should help reveal the student's levels of confidence and maturity; their current strengths, their preferred competencies to work on and perhaps some areas to improve.

NB: The activities include degrees of independent work – instruction and supervision must still be provided for the student.

- Participate in a WH&S site induction
- Carry out repairs to single electrical circuits
- Carry out panel repairs
- Clean and finish vehicle interior
- Deliver a service to customers
- Inspection and servicing in engines
- Maintain basic measuring devices
